

PARALLEL SESSION**Room: Rafflesia 1**

Time	ID Paper	Title	Presenter
13.00 - 13.15	1570457368	Analysis of User Acceptance, Service Quality, and Customer Satisfaction of Hospital Management Information System	Lenny Putri Yulianti
13.15 - 13.30	1570465307	Classroom Action Research using Student Team Achievement Division Approach Case Study: Business Process Modelling Course on BPMN subtopics	Ismail Syahputra
13.30 - 13.45	1570476375	The Effects of Tourism Information Quality in Shaping Tourists' Visiting Interest	Muhammad Rifki Shihab
13.45 - 14.00	1570477248	Exploring the roles of collaboration factors towards ERP adoption	
14.00 - 14.15	1570485992	Development of Vocational High School Information System using AngularJS	Rusyda Nabila
14.15 - 14.30	1570483396	Dual Process Theory for Information Credibility in Instagram Account	S Reyneta Carissa Anwar
14.30 - 14.45	1570485921	The Role of Initial Trust on Intention to Use Branchless Banking Application: Case Study of Jenius	Fatimah Azzahro
14.45 - 15.00	1570488608	Digital Literacy Skills To Support The Implementation Of Web-Based Monitoring And Evaluation Industrial Practice	Wahyu N Hidayat
15.00 - 15.15	1570488610	Cognitive Ability Improvement in Learning Resource Development Course Through the implementation of Life-Based Learning Models Using LMS	
15.15 - 15.30	1570464682	Visibility Study in Strategizing for Web Marketing and Webometric University Ranking in Malaysia	Rita Zaharah Wan Chik
15.30 - 15.45	1570487005	Interactive Learning Media Innovation: Utilization of Augmented Reality and Pop-up Book to Improve User's Learning Autonomy	Khoirudin Asfani
15.45 - 16.00	1570486012	Sentiment Analysis of Indonesian Commuter line Based on Twitter Data	M. Octaviano Pratama
16.00 - 16.15	1570485893	E-Learning Process Analysis for Determining Student Learning Patterns Using Process Mining Approach	Muhammad Azani Hasibuan
16.15 - 16.30	1570485950	Comparative Analysis Using the Topsis Method and WP in Case Study of the Best Mountain Decision Support System for Hiking	Shinta Oktaviana

PARALLEL SESSION**Room: Rafflesia 2**

Time	ID Paper	Title	Presenter
13.00 - 13.15	1570486131	Animation 2D as a Content for Interactive Media Education in 360-Degree View Using ToonBoom Harmony Software '3 Historical Monuments of DI Yogyakarta' based on Virtual Reality	Septian Rheno Widiyanto
13.15 - 13.30	1570485759	Empirical Study on the Use of Two Remote Asynchronous Usability Testing Methods	Satrio B Yudhoatmojo
13.30 - 13.45	1570483817	Flying Weather Network System Based On Wireless Sensor, An flights Investigation	Abdul Aziz Abdullah
13.45 - 14.00	1570467800	Concept of Configurable Wireless Sensor Module Using Modbus TCP Protocol with User Defined Android	Ali Jaya
14.00 - 14.15	1570476047	Influence of mobile applications on students' speaking skill and critical thinking in English language learning	Woro Kusmaryani
14.15 - 14.30	1570476136	Design and Implementation of the Korean Muallaf Center Applications as a Guide to Procedures for Praying and Iqro for Korean Muallaf	Wibby Aldryani Astuti Praditasari
14.30 - 14.45	1570485999	3D Modeling and Animating of Characters in Educational Game "Asiknya Berbahasa"	Ade Rahma Yuly
14.45 - 15.00	1570486145	Mobile Augmented Reality Using Cloud Database for Interactive Museum Guiding System	Irma Permata Sari
15.00 - 15.15	1570476008	The Smart Bottle Work Design Based on Raspberry Pi and Android	Prihatin Oktivasari
15.15 - 15.30	1570488701	Learning Media for Human Digestive System Based On Augmented Reality	Iwan Sonjaya
15.30 - 15.45	1570476553	Information and Communication System Technology with VPN Site-to-site IPSec	Walidatush Sholihah
15.45 - 16.00	1570476666	Design of Portable Weather Station Using MQTT Protocol	Inna Novianty
16.00 - 16.15	1570485868	Virtual Reality Application For Educational Interactive Media "3 Historical Monuments Of Yogyakarta"	Hata Maulana
16.15 - 16.30	1570474090	The Development of Whatsapp Group Discussion to solve the limitation of lecture-students interaction at class (Study in students of Elementary School Teacher Education Program at UNU Blitar, Indonesia)	Achmad Ryan Fauzi

PARALLEL SESSION**Room: Rafflesia 3**

Time	ID Paper	Title	Presenter
13.00 - 13.15	1570487354	Deep Learning Algorithm for Data Classification with Hyperparameter Optimization Method	Tessy Badriyah
13.15 - 13.30	1570476774	Photo splicing detection using error level analysis and laplacian-edge detection plugin on GIMP	Erika Ramadhani
13.30 - 13.45	1570486003	Analysis of source code plagiarism in basic programming course	Dwi Maryono
13.45 - 14.00	1570487621	Prediction Based Smart Farming	Sai Yeshwanth Chaganti
14.00 - 14.15	1570471508	Emotion Recognition from Facial Expression Using Deep Convolutional Neural Network	Dewi Yanti Liliana
14.15 - 14.30	1570476351	Partus Referral Classification using Backpropagation Neural Network	Annas Gading Pertiwi
14.30 - 14.45	1570486009	Simple Multi Attribute Rating Technique (SMART) method on Employee Promotions	Euis Oktavianti
14.45 - 15.00	1570486001	Precision Agriculture Classification using Convolutional Neural Networks for Paddy Growth Level	Indri Neforawati
15.00 - 15.15	1570489271	Naive Bayes on Priority Queue Management	Dewi Christi Yuliani
15.15 - 15.30	1570485920	Recommendation System Using Hybrid Collaborative Filtering methods for Community Searching	Eriya
15.30 - 15.45	1570485816	Decision Support System For Deciding The Best Performance Teacher Using MOORA Method	Iklima Ermis Ismail
15.45 - 16.00	1570473732	Implementation Restful Web Services into Marketplace Generator	Anita Hidayati
16.00 - 16.15	1570487301	OCR Correction for Indonesian Historic Newspapers Using Word Repetition, Stemmer and N-gram	
16.15 - 16.30	1570485919	Implementation Of Kmeans Clustering On SIPP-KLING Dashboard Applications	Yoyok Sabar Waluyo
